PROFILE

Responsible for the development of software that meets the specific needs of the company through effective IT solutions. Design and program websites and applications, defining a graphical interface that is attractive and intuitive for the end user, optimizing both conversion and usability to generate traffic. Correct identified errors and provide ongoing maintenance to projects.

SKILLS

- Creativity.
- Efficient time management.
- Problem-solving skills.
- Quick learner.
- Effective self-management.

ABOUT ME

Hello, my name is **Sergio Alejandro Hernández Patiño**. I am 23 years old and my identification number is C.C. **1.094.881.080**. I am a technology specialist in analysis and development of information systems, with a deep passion for new technologies and personal development. I have four years of experience as a Software Developer.

EXPERIENCE

CODESA
2020 - 2021 | CODESA

At CODESA, I served as a developer, using various disciplines and technologies such as

Java, JUnit, Maven, Spring, JPA, Hibernate, Oracle, PL/SQL, and microservices

I worked as a developer in the cross-functional team, where I implemented new functionalities in projects based on both microservices and monolithic architectures.

I gained extensive knowledge in the professional environment, as well as in the operation of the company at the national level...

Intelecto
2021 - 2023 | Intelecto

At Intelecto, I worked as a Development Consultant, using various disciplines and technologies such as

C#, .NET, PowerApps, PowerAutomate, PowerBI, PowerPages, SQL Server

I was responsible for designing, developing, and maintaining business solutions using tools like Power Apps, Power Automate, Power BI, and Power Pages. This role involves creating custom applications, automating processes, analyzing data, and integrating these solutions with existing systems to optimize efficiency and support decision-making within the organization.

AutoControl Empresarial
2024 - Present | ACEM

At ACEM, I hold the role of Development Director, with my primary responsibility being to lead and oversee all activities related to software development. This includes strategic planning, team management, technical decision-making, and project coordination.

In addition to my leadership role, I am also a software developer at ACEM, using various disciplines and technologies such as

- Responsible and committed attitude.
- Results-oriented.
- Communication skills.
- Teamwork.

WEAKNESSES

- Perfectionism.
- Haste.
